Related Practices

- IP Litigation
- Agreements
- Trade Secrets

David Brody is a principal at Hamilton Brook Smith Reynolds whose practice focuses on complex business disputes and IP litigation in trial and appellate courts across the country. In addition to patent infringement litigation, David's practice includes disputes involving trade secret misappropriation, nondisclosure agreements, invention assignment and license agreements, trademark infringement, and unfair competition and other intellectual property disputes. He also has extensive experience in licensing and other IP transfer transactions.

David works with clients ranging from large multi-national corporations and major academic institutions to start-ups and individuals. His clients have been in a wide range of industries, including medical technology, organic chemistry, oil refinery waste remediation, chemical engineering, CT imaging, acoustics, genetic diagnostic testing, telecommunications, plastic chambers for underground conduits, video signal processing, and medical apparatus.

David holds a chemistry degree from Brown University, a physical organic chemistry master's degree from Yale University and a law degree from New York University.

Before joining Hamilton Brook Smith Reynolds, David was with Widett, Slater & Goldman, P.C. and Foley Hoag, both in Boston, and Paul, Weiss, Rifkind, Wharton & Garrison in New York.
