

PRACTICE AREAS

- Patents
- Design Patents

TECHNOLOGIES

- Autonomous Vehicles
- Electrical Engineering
- Medical Devices
- Optics & Photonics
- Robotics

EDUCATION

- B.S. in Physics, cum laude with Honors in physics, The College of William and Mary
- Ph.D. in Physics, Boston University

Marc McGuigan, Ph.D. PATENT AGENT

Boston Office 155 Seaport Blvd., Boston, MA 02210 617.607.5950 Marc.McGuigan@hbsr.com

Marc is registered to practice before the U.S. Patent and Trademark Office and has assisted with patent application drafting and prosecution for small and medium enterprises and universities.

BROC

He has also assisted with novelty searches and infringement studies. His previous patent experience related to a range of technologies including medical devices, surgical robotic systems, autonomous robots, electrical engineering, optics, and portable partition systems.

Marc earned a Ph.D. in physics from Boston University. His graduate work focused on high-resolution imaging and involved optics, electronics, and electrochemical etching. He is familiar with many high-resolution imaging techniques including shear force microscopy, near-field scanning optical microscopy, scanning electron microscopy, and atomic force microscopy.
